

LEISS UWASE

Information Technology Student | Web Development, Databases & IT Systems

Gasabo, Kigali, Rwanda | leisswase@gmail.com | +250 790 250 596 | leiss-portfolio.vercel.app

PROFILE

A final year Information Technology student at AUCA with hands-on experience across web development, databases, DevOps, and customer-facing operations. Multilingual, adaptable, and comfortable working across the stack, with a track record of taking on independent projects and delivering real, working systems. Motivated to grow into a financial IT track through real-world exposure and mentorship.

ACADEMIC BACKGROUND

BSc in Information Technology, Information Management <i>Adventist University of Central Africa (AUCA), Kigali</i>	2023 – Present
Advanced Certificate (A2), Mathematics – Chemistry – Biology <i>Lycée Notre Dame de Cîteaux, Kigali</i>	2019 – 2022

KEY PROJECTS

Independent Project KSW Company Website & HR E-Recruitment System <i>Self-initiated, built for a Rwandan sugar manufacturer</i>	2026 - Ongoing
---	----------------

- Designed and built a full PHP/MySQL website with a public company brochure and an HR e-recruitment backend.
- Implementing role-separated admin dashboards, OTP login via PHPMailer, and a public job application flow.

AgriMind Agricultural Knowledge Graph & Advisory Platform <i>Final Year Team Project · AUCA Assigned Track: ML/AI</i>	2026
---	------

- Collaborated in a team to design an AI-powered agricultural advisory platform for Rwanda, combining a RAG pipeline (Mistral 2.3B) with a knowledge graph of 500+ entities covering local crops, pests, and soils.
- Presented the system's ML/AI architecture and design decisions during the final year thesis defense

WORK EXPERIENCE
